Life cycle analysis Workshop

Dates: 2nd-4th September

Wednesday 2nd September

from 9:30 a.m. to 1:30 p.m.

- Participants' presentation
- Life cycle thinking
- LCA introduction. LCA databases. LCA methods (video presentation)
- Open LCA program installation on student's personal computers.
- OpenLCA presentation

Thursday 3th September

from 9:30 a.m. to 1:30 p.m.

- OpenLCA: Practical case.
    The students will learn the use of a freely available software of performing LCA. The teacher will carry out an exercise as an example and later the students will have time to carry out the same exercise.
- Discussion and presentation of a new LCA project.
    The students will perform a new Example LCA. The students will send the results to the teacher before the end of the workshop (each student will receive a score for their work).

Friday 4th September

from 10:00 a.m. to 12:00 p.m.

• The teacher will assist students:
    online tutorials to provide guidance, comments and help on the exercise.
